**DETAILS OF SPACES TO BE HEATED**

Please provide a drawing of the space(s) to be heated. This does not need to be to scale but lengths of walls are required. A drawing showing elevations (ie side view showing heights) is also helpful.

**OTHER DETAIL REQUIRED**

1. Ceiling height
2. Insulation - ceiling (**Yes/No**)   Walls (**Yes/No**)   Under Floor (**Yes/No**)
3. Percentage glass (approx.)                      %
4. Materials (eg gib walls, timber floors)
5. Approximate year it was built
6. Aspect (show **North** on the drawing above)
7. Existing heating and whether this will be retained

Generally heating the living area is essential. In cold houses heating the hallway can also be advisable. Plus infracomfort<sup>®</sup> heating is excellent for bedrooms, offices and miscellaneous spaces.
